Draskic Studios – 136 Magazine St, Cambridge MA 02138

Artist - February 2024

1. Dusk and Dawn, Mixed Media, 18x24" (2021)

A depiction of a dream about life and death, “Dusk and Dawn” gives us two characters: A rooster representing the dawn of the day, or the early part of life; and an old woman, representing the sunset of life - looking at the face of death. This painting contains UV activated elements and comes with a UV flashlight and 3D glasses.

Price: \$2000,00

2. Abuelita (left) and Oceanita (right)

Little Mermaids series - Mixed Media paintings 8.5"x11" (2021)

The series is a collection of female characters, functioning as individual paintings but also as a collection – showing youth, middle age, and old age. They are different versions of the ocean deity (Yemonja) respected in many cultures of the world. These paintings contain UV activated elements and come with a UV flashlight and 3D glasses.

**Price: \$300,00 per individual painting
\$500 for the pair**

3. Threads, Mixed Media, 24x36" (2021)

“Threads” show us a woman pulling on strings of various colors and creating bands of various traditional designs (found typically around Scandinavia and Mongolia). Like her predecessors, this woman is creating her own clothing and dressing herself in her own creation. This painting also explores harmony, where assorted strings with different colors are pulled and put together in a harmonious pattern and rhythm. This painting contains UV activated elements and comes with a UV flashlight and 3D glasses.

Price: \$5000,00

4. Meeting in the Forest, Mixed Media, 24x36" (2021)

"Meeting in the Forest" is a surrealist vision where two different worlds meet on the same plane. All the fish depicted in the painting are realistic representations of oceanic species, set in a realistically depicted forest of New England. The human character is carrying a delicate necklace (guia, spiritual guiding necklace, or a rosary) in her left hand, and a lantern in her right searching her way between the worlds. This painting contains UV activated elements and comes with a UV flashlight and 3D glasses.

Price: \$5000,00

5. Liora (Lady Buckthorn), Mixed Media on wood, 18x24" (2023)

Valued for both its fruit and its ornamental value, Sea Buckthorn bears abundant crops of large, juicy, flavorful, bright orange berries. The artist saw the spirit of this plant as a young girl, full of life. It is said that the plants' medicinal properties are due to magical beings who come to feast on the juicy berries. One of the known mythological beings associated with this plant is Pegasus, the bearer of strength, endurance, and power of heroic self-conquest. This painting contains UV activated elements and comes with a UV flashlight and 3D glasses.

Price: \$2000,00

6. Eye See You, Mixed Media, 48x48" (2018)

This painting has been created as a collection of familiar gazes, a tapestry consisting of more than seven hundred irises. The color code is created as a system of relationships, where two rhombic shapes of the same color never touch on their sides. In these rhombic shapes, depicted are the eyes of friends, family, enemies, good, bad, sad, happy and all kinds of human and alike, suggesting the connection between all beings in one intricate universal tapestry. This painting contains UV activated elements and comes with a UV flashlight and 3D glasses.

Price: \$10,000,00
